Project Description for Grants and Cooperative Agreements Program - 2017/2018 2/28/2018

Applicant: National Youth Project using Minibikes

Application: Education & Safety

Mr. Fernandez,

I have been made aware of a program by one of my constituents Paul Slavik, that has the potential to make a positive change in the lives of some of our California youths called National Youth Project Using Minibikes (NYPUM). My understanding is that there is a proposed partnership between Ca. State Parks, OHMVR Division and NYPUM along with several law enforcement agencies to provide this mentorship program. My further understanding is that your grant program has a category called "Education and Safety" and this could be used for the associated costs of training the staff and delivering the program. I believe this is a good cause that should be supported by the California State Parks and I fully support the grant.

Sincerely,

A handwritten signature in black ink that reads "Matthew Harper" with a stylized flourish at the end.
